

Overcoming Objections

“I always finish the bottle of wine...”

Now you can have just a single glass without the pressure to finish, or you can drink multiple glasses from different bottles, all in one night.

“Coravin is intimidating...”

Coravin is really easy to use right out of the box. You simply insert, tip, and pour. Here, give it a try!

“I don’t drink expensive wines...”

The cost of wasted wine continues to add up over time, even if it is just from a ten-dollar bottle.

“Coravin is expensive...”

Coravin is a one-time investment for your kitchen or bar—and once you make it, you will have the freedom to drink wine by the glass on your own terms. You will be able to try different wines, entertain without waste, and preserve your growing collection.
